

RE- ELECT

Judy Hayes Commissioner

Republican Primary Election May 4th

Judy Hayes Offers Vision With Experience

**3rd District
Commissioner
Judy Hayes**

I was born in the Burwood-Thompson Station area, attended Williamson County Schools, and earned a degree from David Lipscomb University. After college, I taught in the Williamson County School System for ten years before joining my husband Jim in our broadcast radio business. In 1986, I decided to devote my full time to

public service and you elected me to the Commission.

I try hard to balance the requests from the Third District so each segment of our population is equally treated. I believe in listening closely to what you have to say, and giving every idea and proposal thoughtful consideration. In these economically challenging times, experienced leadership with vision is needed to maximize the use of every tax dollar.

It has been a great honor for me to serve as one of your two Williamson County Commissioners from the Third District. I have worked hard to as-

sure that all residents of the Third District are represented aggressively and fairly.

As a native of the Third District, I have known many of you personally for years, but our district continues to change. My purpose here is to share with every resident some of the things that have been accomplished while serving as your Commissioner. I believe each person and all communities and neighborhoods within the Third District should be represented equally and fairly. I pledge to always listen to what you have to say.

Some of the projects I have supported:

- No county tax increase for the last seven years
- Broad based county property tax relief for elderly
- Design team for Heritage Schools
- Helped secure land for Chapman's Retreat Elementary School
- Sponsored Veterans Memorial park in Franklin honoring all county veterans
- Sought funding for Longview Recreation Center
- Sponsored Williamson Recycles—county recycling program
- Identified land for Allendale Elementary School
- Naming committee for Longview, Spring Station, Allendale, Heritage and Independence Schools
- Continues supporting programs to bring jobs to Williamson County
- Helped secure funding for traffic light at Bethesda-Duplex Road
- Supported programs and centers for Seniors including College Grove Fitness Center
- Served as chairman for task force to bring more tourism to Williamson County
- Serves as Task Force Chairman to improve Williamson County Animal Control
- Charter Member of Williamson County Fair Board

The Next Four Years Will Be Challenging

The next four years in Williamson County government will be challenging. The County Commission faces the task of managing every tax dollar as wisely as possible getting as much out of every dollar as possible. It is a time when my 24 years of experience as your County Commissioner will be of great benefit.

I have always been a fiscal conservative and I bring that trait with me to

the County Commission. With very careful management, I believe we can still enjoy a very high quality of governmental service as we join hands to work our way through these most challenging economic times.

Our County Mayor has called for fiscal restraint in all things and fiscal cuts where possible. I agree with this position.

Here is where experience on the County Commis-

sion and a full working knowledge of how every department of our county can work together becomes a very valuable asset to the taxpayer.

We must continue funding high quality education making our schools better than ever. We must provide taxpayers with quality professional law enforcement, safe roads and we must continue to support recreation for all ages.

Vote May 4th It's Important !

Our School Are Great And Getting Better !

“Great schools assure a great future for Williamson County “

Judy Hayes

Williamson County Schools continue to grow and improve as we make every effort to see that our students have the best facilities in which to learn. As a former teacher with ten years experience with the William-

son County school system, I have always supported public education. During my years as your County Commissioner, I worked with the developer to secure the land for Chapman's Retreat Elementary School at no cost to taxpayers. I helped identify the land and served on the project team to design and name Heritage Schools.

As your Commissioner, I identified the land for the new Allendale Elementary School

and also served on the naming committee for Allendale, Spring Station, Longview, and Independence Schools.

Demand for new and better schools is growing in all parts of Williamson County with growth in the Third District exceeding that in other areas. Having professionally designed well built schools conventionally located adds greatly to the ability for our teachers to teach and our students to learn.

Parks and Recreation Are Important

As our population grows, the demand for better parks and recreational opportunities increases. I was able to work with the City of Spring Hill along with Parks and Recreation to help identify land and seek funding for Longview Recreation Center. I have supported improved recreation facilities all over the Third District and will work

hard to see this great program continues serving more of our citizen's needs including our Seniors. I am particularly proud of my work securing more than 70 acres of land from the State of Tennessee for a passive

park to serve all the county near Natchez Trace Parkway..

“I'll work for more active and passive parks in the district”

Judy Hayes

Judy Hayes Offers Vision With Experience

I was first elected Third District County Commissioner in 1986 and I have served you since. When you review my record of service, I hope you will see evidence that I bring vision with experience to the office.

I have been able to devote my full time to community service working as your County Commissioner for the past 24 years,

I am a fiscal conservative who believes in listening to all points of view before making a decision. I have always tried to put the people of the Third District first giving every idea presented to me very thoughtful consideration. I appreciate your support.

Dear Friends,

The campaign to elect two County Commissioners May 4th comes down to one central issue – **experience**. One candidate who seeks re-election has depth of experience serving in the County Commission, and we who live here have a lot to show for her good work. County Commissioner Judy Hayes has distinguished herself by the projects and programs she has supported while serving the Third District for 24 years. Whether you live in the countryside, the Town of Thompson's Station, The City of Spring Hill, or one of our many smaller communities, each of us can point to improvements to our way of life directly related to the hard work and experience of Commissioner Judy Hayes.

Her work on projects like Heritage Campus, Independence, Chapman's Retreat, Allendale, Page and College Grove along with Longview and Bethesda schools clearly demonstrates her dedication to our school system and the people of our district. In cooperation with Spring Hill, Commissioner Hayes worked with Williamson County Parks and Recreation to build the modern new Longview Recreation Center. and she supports improved library services in communities where they can be acceptably located. Wherever we look, we see evidence of her good work for the Third District.

The Williamson County Commission is a body of twenty-four and beneficial things get done by those with experience and those who know how to build consensus. Commissioner Judy Hayes has earned the respect of her peers. When she speaks, her fellow Commissioners listen. Look around and see the good things that have been accomplished for us. Commissioner Hayes is a conservative who is always mindful of the need to be fair while being a good manager of our tax dollars. She wants the best for all the people of the Third District.

The next four years will be critical for the citizens of our district as The Williamson County Commission confronts challenging economic times. Our Commissioners will likely be asked to make decisions requiring depth of understanding that only comes from experience on the job, The May 4th Republican Primary is very important Be sure to vote. Join your neighbors who believe Commissioner Judy Hayes has been a good leader for the Third District and should continue representing us. Please remember **the main issue in this election is experience** and **Judy Hayes offers vision with experience !**

Your Vote May 4th Is Important !

Every time I visit the Williamson County Veterans Memorial Park at Five Points in Franklin, I think of the sacrifices made by those who have served our country over the years. I remember that all those men and women fought for democracy and won for us our right to vote and elect a government of our choosing. It makes me proud that I helped design, promote and sponsor the building of this monument and park honoring all our county veterans. As

Americans, voting is our most important privilege; a right that was won for us by others. Let's pro-

tect that right. Please join me at the polls May 4th and cast your vote in the Primary Election.
